Newspapers and Periodicals

Subscribers who do not give express notice to the contrary are considered as wishing to continue their subscriptions.

If any subscriber wishes to discontinue his paper at the expiration of the time for which it is taken, a notice to that effect should be sent to the office, otherwise the publishers will consider themselves authorized to continue sending the papers.

If subscribers remove to other places without informing the publishers, and the papers are sent to the former direction, they are held responsible till they have settled their accounts and ordered their papers discontinued.

The Courts have decided that a refusal to take a newspaper from the Post Office, without informing the publisher, and having the reasons for refusing it published, is prima facie evidence of fraud.

Subscribers who do not receive their papers regularly will please inform the publishers of the fact immediately.

Letters on business relating to the paper should be addressed to the publishers, and not to individuals connected with the establishment.

Any person may become a subscriber to a newspaper, and is responsible to the publisher for the payment, though he may direct his paper to be sent to another person.

Persons who receive newspapers and periodicals from the Post Office, whether addressed to their names or those of others, are responsible for the payment.

Newspapers may be sent to subscribers for any length of time beyond the period for which they have paid, but they cannot be collected by law.

The Honey Blade Grass.

THE results which have been attained by experiments in the cultivation of this newly imported species of product have awakened an interest in the farming classes in many sections never before equalled in the entire history of agricultural industry Facts in regard to its valuable properties which at first seemed almost incredible have now been established beyond the possibility of a doubt and it is believed, by those best capable of judging of its merits that its general introduction will add millions of dollars to our agricultural wealth I have not the space here to enter into details but will present briefly some of its advantages

First—It will produce double the weight to the acre in any soil of any other kind of grass—from four to six tons per acre is not an uncommon yield and I am in possession of sworn statements by disinterested and reliable persons of a yield of over eight tons of good dry hay from a single acre in soil where it was not possible to get more than one half the amount from any of the common grasses

Second—The animal weight increased more nutriment, and consequently will bear a larger price in the market thus securing the farmer more than double the return from his grounds that he could obtain from any other forage plant. It also produces one third more nutriment than timothy and has sold for $15 per ton where the price of timothy was but $10 or $12

Third—Both hay and seed can be produced from the same crop the hay being equally valuable as that or hay after the seed is taken from it will be the seed is as valuable as the best of other grain as a feed for horses cattle pigs chickens &c and is proved to be superior to foxgrass timothy or clover and will always find a ready sale at a high price for this purpose

Fourth—It matures in about two months time and can be sown on grounds where other crops have failed either by drought or other causes and at the same time will yield a large return

Fifth—In cold northern climates where clover and other grasses are killed out by hard winters this will withstand the cold and will produce a crop and I know of no locality in the South where other grasses will not thrive at all it will grow very profusely

Sixth—It will stand all kinds of weather and whether the season be wet or dry the farmer may always rely upon his *Honey Blade* as a sure crop

These and other advantages proved by facts which are endorsed by some of the first agriculturists of the Union and cannot fail to carry conviction to every intelligent reader

Having during the past year had the purchase and importation of the pure *Honey Blade* Seed I have been selected by General Commissioners as a market to offer to every farmer and planter to interest himself during the coming season in its cultivation It is put up in uniform bags of about sixteen pounds each the amount being sufficient to seed one acre and the price is $5 per bag delivered in New York or New London

Single bags or less can be sent to any part of the country per express and will be put up securely for transportation and the postage or freight to be added to the amount of each bill and allowed on returning *Honey Blade Hungarian Grass Seed* It will be sold by agents in various sections but parties should be careful from whom they purchase and secure the genuine article as it is especially called to their notice that the Hungarian Grass Seed as it is very far inferior to the Honey Blade

An interesting pamphlet containing all of the facts and different tests will be forwarded free of charge by mail or any of my agents upon application Parties will please state the number of the license interested in the sale, as the sale is exclusive, that nearly a quarter of a million of persons of this pamphlet have already been supplied for

Parties desiring to secure seed should order at once as the annual allotments are that the United Amount obtained will be exhausted soon after the season of sowing has passed Those who secure seed in a year can realize a rich return, by procuring seed to supply the demand of farmers and planters for seed another year

Orders should be sent directly to me at Utica in the vicinity of New York where they will be filled by J F MILLS and Co 406 Broadway New York General Agents

Agricultural Implement General Merchants and any other parties properly situated are invited to become agents for the sale of the *Honey Blade* Seed Authority full particulars, and from 5 to 100 pamphlets for distribution will be furnished either by me or the New York Agency on receipt of 5 cents to pay the package

I am authorized to name the following well known gentlemen as references Hon J R Gardner Lieutenant of the St Louis Agricultural and Mechanical Association Hon Thomas Allen President of the National Agricultural Society and Member of Congress from St Louis Gen J Tillman Dix ord, Md, President of the National Agricultural Society, John J Anderson Banker St Louis John Riggan Jr Broker St Louis and ex Mayor Washington Mo

Republican Nomination.

FOR MAYOR,

ISAIAH STETSON,

Election, MONDAY, March 14th.

The City Election.

We must again urge our Republican friends not to neglect attending the polls on Monday next. The apparent absence of effort on the part of the opposition, will not justify an omission to vote on the part of any Republican who desires that the voting lists shall remain under the control of the friends of freedom. The hunters will perhaps make an effort on Monday to carry a majority of the Board of Aldermen. Let Republicans be on hand then, to prevent any possibility of a success-ful appropriate.

The gentleman nominated for Mayor of the Republican Caucus on Tuesday evening is one of our most prominent citizens, and well known to be every way worthy of the nomination, and every way capable of filling to acceptance the office of Chief Magistrate of the city. His acquaintance with city affairs is thorough, and the industry and intelligence which he has brought to the discharge of his official duties in the Board of Aldermen, and in other capacities, will recommend him most strongly to the new post on which he is to assume. The nomination was not made by any clique, Ring or caucus, as falsely intimated by the Union. It will be most cheerfully supported by all Republicans.

The Vote of the Agricultural College Bill.

As a general rule, it is quite safe to conclude that any measure calculated to benefit the industry or the enterprise of the free States is sure of a Presidential veto, so long as the National government remains in the hands of Democratic Presidents. This is precisely one of the things for which Democratic Presidents are elected. The Free Homestead bill has been defeated in Congress times without number, by the opposition of the Southern Democracy, and when at length passed, was promptly vetoed by a Democratic President. So of various bills giving portions of the public lands, for just division to all the States, for various purposes—for railroads, for schools, and for the support of the insane—they are all either defeated or vetoed.

The latest case is that of the Agricultural College Bill—a bill INTENDED EXCLUSIVELY FOR THE BENEFIT OF THE GREAT AGRICULTURAL CLASS, which embraces two-thirds of the working men of the country. The *free* farmers, however, to be benefitted by the bill, reside mostly at the North. Hence, an appropriation either of money or lands can be allowed to such them. The President interposes his veto to prevent the will of the people's representatives from being accomplished. The South says, "The farmers mustn't have the land," and the democratic President promptly announces, *I veto the Bill!* The bill was carried in great part by Northern votes against Southern—Southerners going with its friends to make a small majority in both branches of Congress. Counting the vote of Senate and House together, there were from the North 112 supporters of the bill and 41 opponents of it. From the South 17 supporters and 81 opponents.

THE LATEST FEVER.—The rush to the Kansas gold regions is becoming immense, and must soon produce great suffering and distress among the emigrants. That one in ten of them will even obtain gold enough to pay their outfit, is scarcely within the range of probability. Speculators and others interested in getting up a big excursion into Western Kansas, are stimulating the fever by glowing accounts of the richness and extent of the gold deposits—of which statements not the half is to be believed. But,—were the stories all true and doubly true, the gold would be speedily exhausted. The thronging multitudes even now on their way from the Western States, will cover the gold region like a flight of locusts, and the gold will disappear before them like the green herbage before the winged devourers.

The Pike's Peak gold fields are so easy of access, that thousands upon thousands will be upon the ground and in possession of the best locations, before a gold seeker from Maine can reach the Mississippi valley. As long ago as the 24th of February, *nine steamboats* loaded with eager adventurers, passed up the Mississippi river in one day. At St. Josephs, the town was crowded with emigrants as early as the 18th of October—nearly a month ago—and so on all the route to Western Kansas.

We repeat our warning to the young men of Maine who contemplate a start for this new El Dorado. Think again—and don't go. You will only rush upon misery. Rather make yourselves homes and farms upon our rich settling lands—where ten of you can get rich for every one who succeeds in gold hunting.

NEW HAMPSHIRE.—The New Hampshire Patriot (Democrat) figures up a Republican majority of 3639 in 185 towns. It concedes that the Republicans have elected their Governor, three members of Congress, four of the five Councillors, and a majority of the Legislature. It asks two cheers "that the results of yesterday's vote are not so favorable to our friends as we expected." It is certainly cold comfort to lose everything—Congressmen, State Officers and Legislature.

There has been a Republican loss in the aggregate vote, which was expected, and is thus in part accounted for by the New Hampshire Statesman:

"In the early portion of the day a cold and drenching rain fell over the whole portion of the State, and at its hours were of the most unpleasant possible character for the anniversary election. The Republicans undoubtedly sustained a loss of several hundred votes by this cause, and be that and that most extraordinary exertion on the part of the Democrats in order to carry the First and Second Congressional districts, the majority for Governor has been reduced to a figure below that for Governor in 1858. Never since the existence of the State, were such extraordinary exertions put forth in behalf of candidates for Congress in labor and money, as in the First and Second Districts. Money in the utmost abundance was freely distributed, and all the machinery ever put in motion in an election canvass has had full play, through which to defeat Messrs. Marston and Tappan. But thanks to the determination of the gallant Republicans of New Hampshire, the purposes of the Democratic party have been signally defeated, and the Republicans emerge triumph from one of the most important election conflicts of the last four years."

The returns which have been received indicate that the majority for the Republican candidate for Governor will exceed three thousand.

FRANKFORT Mills, March 10, '59.

Messrs. Wheeler & Lynde:

No amount, however lengthy, can alter the fact that the divil or his mother did defeat us last Monday, in this town. Because they are defeated, they wish to excite the sympathy of Republicans not knowing all the facts. Mr. Trout happens to be a prominent Democrat and an ardent opposer of division—but if he had been a Republican his course would doubtless have been the same. In favor of division we find quite a number of prominent Democrats. However my political principles, in the hour of her need, he sacrificed everything but honor. When a refugee in Turkey, he spurned the overtures of Islamism, turned his back upon the golden bribes of power, and left the emissaries of the Sultan, supposing death to be the certain consequence of his independence, that he was prepared to die, rather than betray his religion and his God. While the guest of the United States, he collected about a hundred thousand dollars for the cause of Hungarian liberty. He has served to prove to any committee from this country that not a dollar of that fund has been appropriated to his benefit. He has lived the life of a poor and hard-working man in London; and he is now looking with anxious hope for the day of Hungary to approach. He has done nothing worthy of the change of sentiment [and for one] sir, I stand to him to the last.

JOB WORK.—We are prepared to execute job printing of all kinds, in the latest style, and at *as cheap rates* as at any office in the State. Our friends who are in want of Cards, Bill Heads, Shop Bills, Blanks, Circulars or any thing of the kind, will we hope bear us in mind.

STORE BREAKING AND ROBBERY.—On Saturday night a panel in the back door of Mr. Thomas A. White's store, on State Street was broken in and the store was entered, and a few pieces of woolen and cotton goods taken away—the amount not being large. Thieves first attempted to cut through the door—but their jack-knife being evidently dull, they resorted to the more expeditious mode of breaking. A couple of persons with hooped mandoles were seen about half past ten going up the steep hill in the rear of the store. The store of D. P. Stockwell was entered on Monday night and about $40 worth of articles taken. Leonard's medicine depot was entered on Sunday night, and some medicine taken.

St. Patrick's Day, which falls on Thursday the 17th inst., will be observed by the Catholic Temperance Societies in an appropriate manner. The Gratton Guards are to parade on the occasion, and to give a ball in the evening.

A PROMENADE CONCERT.—We learn that the Charleston Brass Band will give a grand Promenade Concert at Norumbega Hall on Wednesday evening next. This band has visited the city on several occasions, and made many friends, and we trust they will receive a generous patronage.

FIRST FAIR.—The steamer J. S. Ilford will leave Boston on Monday, 23d inst., for the Penobscot river, on her first trip of the season.

Town Elections.

The following are some further reports of the Elections on Monday last:

In *Gardiner*, a full list of Republicans elected by handsome majorities.

West Bath. All Republicans.
Alna. All but one Republican.
Pittston. Democrats elected.
In Gardiner, there was no choice for Mayor—Noah Woods having received 490 votes, Barker A. Nea 173, Will am E. Jarvis 13, Joseph Bradstreet 63, Scatter ng 9. The City Council is Republican.
Waldoboro. Democrats elected—Jacob Reed for Moderator, &c.
Richmond. Republicans elected.
Falmouth. All Republicans but one.
Chesterville. Entirely Republican—for the first time.
Wilton. Republican.
Farmington. Republican.
Hockport. The following are the officers elected by the town of Bucksport for the ensuing year. They are all Republicans:
Moderator—T. C. Woodman.
Clerk—Jas. B. Parker.
Selectmen—E. T. Hinks, W. H. Cobb, Amasa Emerson.
Agent—Theodore C. Woodman.
Treasurer—Nathan White.
School Committee—W. H. Pilsbury, T. C. Woodman, A. P. Page.
Tremont. All Republicans—for the first time.
Eden. All Republicans.
Gouldsboro. All Republicans.
Castine. All Republicans.
The Ellsworth American also gives the names of officers elected in Mt Desert, Sedgwick (Blue Hill), Penobscot and Surry, but does not state their politics. They are no doubt Republican boards.

The snow storm on Tuesday night drifted badly in some localities, and is represented as being the worst of the season on the upper portion of the Somerset & Ken. Railroad.

MINISTERIAL MOVEMENTS.—Rev. D. P. Shaw has accepted the call extended to him by the Baptist Church of Damariscotta, and entered upon his pastoral duties last Sabbath.

Rev. John B. C. Abbott is about removing from Brunswick to Farmington. He will supply the pulpit of the Congregational church in that town for one year.

Rev. Joseph Kalloch has accepted the pastorate of the 2d Baptist church of Rockland, and will enter upon his labors on the 13th inst.

BRIDGE AT BOOTHBAY.—A bill has passed the Legislature to incorporate Campbell's Cove Free Bridge Company. This authorizes the corporators to build and maintain a bridge across Campbell's Cove in the town of Boothbay, at or near Thompson's Ferry.

DRAMATIC.—The Goodell Dramatic Club of Brewer, propose to give a Dramatic Exhibition at the Town Hall, on Tuesday evening the 22d inst., when will be presented the play of Luke the Laborer or the Harvest Home.—The afterpiece will be the farce of the Rough Diamond. It is understood the the Bangor Cornet Band will furnish music.

THE CAMPAIGN OPENED.—Almost every day we notice the arrival of strangers from different portions of Maine, and a few from other States. Some of them come to look out locations, while others bring their families along with them, determined to make a home in the city arrived, that a gentleman and his family, direct from Scotland, came as far as Houlton, and took the Smyrna road towards Presque. He told our informant that the people in some parts of Scotland were quite excited in regard to Aroostook, and that many were preparing to emigrate to this section of the country.—*Pioneer.*

THE ADVANTAGES OF THE PROPOSED ROUTE.—In giving some facts from the report of the Railway Board of New Brunswick for 1858, by the Chief Commissioner, H. Jardine, Esq., the *State of Maine* remarks:

The more difficult portions of the I. C. R. Railway line between Halifax and St. John are already built, and the work of construction from St. John to the boundary of Maine will be entered upon as soon as Maine is prepared to meet their line at this point. All the work now in progress is between St. John and Halifax, the distance between the two cities 252 miles.

By the adoption of the Northern route from Bangor to St. John as proposed in the Aroostook Railroad Bill, there is no increase of distance of only 12 miles, with a saving of nearly two millions of dollars in the cost, with easier grades and fewer curves, and what is also of no little consequence, at least three days quicker time on the Southern route. By the adoption of this line, over 70 miles of the Aroostook Railroad are secured, and the same distance on the International Railway to St. John and Halifax.

SECURITIES IN THE LAND OFFICE.—The Committee on State lands and State roads have reported resolves providing for the collection of securities in the Land Office due the State which have passed the House. The first resolve provides that one third part of the principal and interest due the State on all notes given for any tract of land, is required to be paid on or before the first day of September, A. D. 1859; one third part on the first day of September, 1861; and the balance on the first day of September, A. D. 1862. In case payments are not made, the lands for which the notes are given are declared forfeited, together with the payments previously made.

Stumpage for timber cut on said lands is to be paid, to be endorsed on the notes, and each stumpage is required to be paid on the first day of September of each year.

The second resolve provides that part owners may pay for delinquent stumpage and notes on the purchasers of the forfeited claims. We presume the resolves will pass the Senate.—*Cor. Pioneer.*

To the Citizens of Bangor.

CITY OF BANGOR, January, 1859.

MR. LEWIS WATERMAN, proposes to number the Streets of the city upon a plan which will materially obviate the necessity of renumbering afterwards on account of the erection of new buildings, as each new lot is to be carefully measured, and the numbers to be arranged with reference to such probable new erections. He comes with recommendations from other cities and towns where he has heretofore performed similar services, which are satisfactory to me. It is hoped that the citizens of Bangor will avail themselves of the opportunity for effecting the proposed improvement, the expense being small.

TELEGRAPHIC.

TO THE DAILY WHIG AND COURIER.

Gen. Denver, proposes to resign his office as Governor of Kansas by the next session of the Legislature, and his resignation as Commissioner of Indian Affairs.

The Supreme Court yesterday rendered decisions in 17 cases, but did not announce their opinions. The Court adjourned over next week, having cleared the docket to that extent.

The trial of Hon. Daniel Pratt, for murder, will probably take place before the Supreme Court of Jury now being impanelled. The Grand Jury are finding indictments with great precedence over all others.

A statement made by the Comptroller of the Currency shows that the capital of the National banks throughout the country has increased nearly $215,000,000 from Jan. 1857 to Jan. 1859—$435,000,000 in 1858 and $195,000,000 in 1859.

The remains of Lieut. Porter, U. S. Navy, were sent to Texas with the usual military escort, in charge of Justice Clifford and Postmaster General Brown, and Mr. Johnson, Senator from that State; the office of Admiral Porter having been accepted by the family.

New Orleans papers of Saturday have been received. They contain the news by the brig Mayflower, which arrived at that port on the 25th ult.

The Tampico papers contain no news of importance, as to the result of Miramon's movements, but they confirm the previous perfect letale of desertions from his army, and say the "Prince" can muster at this moment a force of only 1,000 men, without including the colonels, majors and Gregg, of the army of Oajaca, who, it is reported, have gone over to Juarez.

The Republican says that the Democratic members of the Legislature have determined to adjourn on the 1st of April, and that the Democratic State Committee have issued a call for a State Convention to meet at Augusta on the 6th of April, to nominate a Governor and other State officers.

The Commercial Treasurer's report shows the trade and commerce of Boston for the year 1858 to have been very much reduced from the previous year, the reduction in the value of imports being $21,800,000, and in exports $6,800,000. The receipts of breadstuffs in 1858 were 1,500,000 barrels less than in 1857, and the receipts of flour by the Lake by seven months of navigation were 20,400,000 barrels less than in 1857, and 2,000,000 bushels less than in 1856.

The Republican says a public meeting was held in Wiscasset on Monday evening, at which resolutions were passed condemning the course of Chief Justice Appleton in relation to the Sheriff's bonds, and requesting the Governor to remove him from office. The Republican says a petition is in circulation in Lincoln County for the removal of Judge Appleton, and that it is numerously signed.

The Commissioners of United States Claims have arrived in Washington, and have entered upon the duties of their office. Their report will be made to the next session of Congress.

The Supreme Court of Kentucky has decided that the Legislature has no power to grant divorces, and that all divorces granted by the Legislature are void.

The Commercial, Boston, says: "The Legislature of Maine has appointed a committee to investigate the affairs of the Atlantic and Maine Fire Insurance Company, and the Legislature of Massachusetts has appointed a committee to report upon the powers of the Penobscot Fire Insurance Company. Need either of them go?"

The Senate on its part elected Hon. Henry Wilson and Major Gerhard Fowler of Salem. The House had chosen Alexander H. Bullock of Worcester.

In the House, on the 3d inst., Mr. Bullock, of Worcester, from the committee on the judiciary, reported a bill regulating the powers of the Supreme Judicial Court in the matter of granting divorces. The bill provides that no divorce shall be granted except for adultery, impotency, extreme cruelty, gross neglect of duty, or habitual drunkenness, and that no divorce shall be granted for any cause arising out of the State, unless the cause is also a cause of divorce by the laws of the State where it arose. The bill was ordered to be printed, and made the special order for Tuesday next.

The bill was ordered to be printed, and made the special order for Tuesday next.

Mr. Burbank, from the committee on the Judiciary, reported a bill to incorporate the Penobscot Telegraph Company, with the usual powers and privileges. Passed to be engrossed.

Mr. Burbank advocated the bill, as a work of great utility to Maine.

Mr. Porter, of Lowell, moved to amend by striking out the exemption of machinery from taxation for three years, instead of two years, as the bill provided.

Mr. Dow opposed any exemption from taxation, and the operation of the bill to encourage the manufacture of cotton and woolen goods. He advocated the amendment and the passage of the bill.

Mr. Laid on the table.

In the Senate, Thursday, March 10th, 1859.

Committee on Agriculture

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

WASHINGTON, 11th.

Gen. Denver proposes to return to California by the next steamer, and this involves his resignation as Commissioner of Indian affairs.

The Supreme Court to-day announced decisions in cases, but did not deliver the opinion. The Court adjourned until December next, having cleared less than half the calendar.

The trial of Hon. Daniel E. Sickles will no doubt take place until the week after next. The Grand Jury not being inclined to go into a correspondence over it here.

A statement made up at the Treasury Department shows that the circulation of the banks throughout the country in 1856 was nearly $216,000,000; in 1857 $150,000,000 and in 1858 $1,3,333,333.

The remains of the late Postmaster General were sent to Tennessee this afternoon, in charge of Justice Catron and Senators Nicholson and Johnson, and Col. Savage of that State; the officers of Adams Express Company having them in charge.

New Orleans papers of Saturday last are received. They contain the details of the news by the late Steamships, from Tampico and Vera Cruz.

Two papers manifested considerable alarm as to the result of Miramon's expedition; but they considered Vera Cruz in a most perfect state of defence. More than 4000 men, say they, "can be concentrated there at a moments notice, in case of siege without touching the commands of Galaxa and Rego, or the army of Oajaca, numbering 7000, near Tehuantepec. All counted, the Liberals have for the defence of the city about 9 available troops. On the other hand the "Diario" thinks that not more than 1000 men can be spared from the other new levies of the line of the bay and by the Reactionist party, and that Miramon will have to depend almost entirely upon the army with which he set out from the capital. In the meantime the war is to be prosecuted with vigor all through the interior.

NEW YORK, 11th.

F. O. J. Smith, chief owner of the Union Pacific Railroad, was arrested to-day at the suit of Jas. Craig for libel, and held to bail in the sum of $10,000, by order of the Superior Court of the city.

A correspondent of the Evening Post says the Postmaster General has reported to the President that the Detroit office in the Department on the 30th of June will be over $6,000,000, and that it will be impossible to do so without an appropriation. Upon learning these facts the President has determined not to call an extra session, but has not yet fixed the day.

OSWEGO, 11th.

The Commercial Times' annual statement of trade and commerce published this afternoon, shows (reducing flour to wheat) that the total movement of grain over Lake Ontario in 1858 was 17,500,000 bushels against 18,000,000 bushels in 1857. The total shipments from the Lake by the canal routes eastward in 1858 were 39,000,000 bushels against 42,400,000 bushels in 1857.

SAVANNAH, 11th.

The Republican says a portion of the African imported in the Wanderer and carried to Liberia country, were arrested near Albany and carried back 80 miles. They will probably be claimed by owners.

HARRISBURG, PA., 11th.

The Committee of the Legislature have received to report a bill granting the divorce asked for by the wife of Mr. Horace B. Fry.

Legislature of Maine.

WEDNESDAY, 9th.

In the Senate.

Bill in relation to libels for divorce, (passed to be engrossed in the Senate,) came from the House and indefinitely postponed.

The amendment from the House which provides that minors and women shall not testify in court against each other, was rejected, yeas 14, nays 15.

Mr Gardner's motion to insist on passing the bill, and appointing conferees was then agreed to.

Report of the Committee on State Lands against the extension of the time limited for the timber *permit* after which granting leave to withdraw on petition of the timber applicant, unanimously accepted in concurrence.

Mr Dyer, from the Committee on Mercantile Affairs and Insurance, reported a bill enlarging the powers of the Penobscot Mutual Fire Insurance Company. Read and assigned.

The Senate on its part elected W. W. Virgin Major General of the 6th Division.—The House had chosen Alexander Burbank.

In the House.

An act regulating admission of attorneys to practice, was considered, and indefinitely postponed.

Resolve read and referred—Resolve regulating taxes shared by Islands belonging to the Penobscot Indians.

Passed to be enacted—An act to punish for trespassing on lands belonging to the Penobscot Indians.

Bill brought in to encourage manufactures, was referred.

Mr Burbank introduced the bill as one of great utility to Maine.

Mr Porter, of Lowell, moved to amend by exempting of machinery from taxation, for three years instead of ten years, and advocated the amendment.

Mr Dow offered an amendment to confine the operation of the bill to machinery for the manufacture of common kind of wool. Mr Dow advocated the same at length and the principles of the bill. Laid on the table.

THURSDAY, 10th.

In the Senate.

Committee on Agriculture, reported leave to withdraw on petition of J. W. Stevens and others, for the formation of an Agricultural Society, to be called the West Piscataquis Agricultural and Horticultural Society. Accepted.

Passed to be engrossed—Bill enlarging the powers of the Penobscot Mutual Fire Insurance Company.

Finally passed—Resolve providing for the collection of securities in the Land Office and the State.

In the House.

Presented and referred—Petition of the Bangor, Oldtown and Milford Railroad Company, of Alexander Webb and others for aid to build a bridge over Passadumkeag river.

Passed to be engrossed—Resolve regulating the leasing of Sierra o. Islands belonging to Penobscot Indians.

Mr Talbot, of Skowhegan, from the Committee on Indian Affairs, reported resolve establishing a salary for Agent of the Penobscot Indians.

Mr Dow, of Portland, from the Committee on Mercantile Affairs and Insurance, reported an act to incorporate the Penobscot Lumbering Co.

Mr Wilson, of Brewer, from the Committee on Indian Affairs, reported a resolve in favor of the Penobscot Indians. Read and assigned.

An act to change the place of holding the April term of the Supreme Judicial Court in the county of York, was passed to be engrossed—70 to 72.

An act regulating the admission of attorneys to practice was taken up, the question being the motion of Mr Shepherd to reconsider the vote indefinitely postponing the same.

The House was reconsidered and the bill was passed to be engrossed.

On motion of Mr Rice, of Hampden, the vote accepting the report of the Committee on the Judiciary, recommending that bill an act to repeal an act approved March 27, 1858, regulating the taxation of boats, sought not to pass, was reconsidered and the report recommitted.

FORTY HOUSES BURNED.—*Saltsburgh* 10th.—A great fire occurred here this morning, destroying Thirty-seven hotel, with the stable and forty horses, together with a large number of sleighs.

FROM CALIFORNIA.—*St. Louis*, March 5.—The overland mail, with San Francisco dates of the 14th ult., has arrived here. No change in passengers came with the mail. To the Ladies of Bangor.

ECONOMY IS WEALTH.

MRS. A. M. WIGGIN, who has a thorough knowledge of the business, offers her services to teach the ladies the art of cutting and making their own dresses and slippers. By very little required to learn, but an under instruction will be rendered to furnish them with the silk and cloth boots, with heels, slippers, &c., at a vast deal cheaper and quite as durable, as those furnished by the shops.

According to her plan many articles of morning apparel, which would otherwise be waste, can be converted into clothing for the feet, thus saving a large bill of expense. Her terms are very moderate. As Mrs. W. will remain but a short time in the place she would respectfully solicit the early calls of those who may desire her services.

Specimens may be seen at her rooms, No. 40, at the Hatch House.

THE

Great English Alterative

....AND....

Humor Eradicator,

DISCOVERED by an eminent English Surgeon, after years of study.

This Medicine is unquestionably the *best Alterative* ever used; Purifying the Blood, giving new and healthy impulse to the functions of the system, and rejuvenating the infirm. It eradicates, at once, all kinds of Humors, Cutaneous Eruptions, Cancerous affections, Scaly Eruptions, Leprosy, and all kindred diseases, which have their origin in impurities of the blood.

For Scrofula it may properly be regarded as a Specific. No other preparation known to the world so promptly and effectually cures this fearful malady. "Cleanse the fountain and the stream will be pure." Purify the blood and the system will be healthy. Take this Alterative and the blood will be purified. To all who are suffering from Chronic Rheumatism, Liver Complaint, Jaundice, Piles, Humor, in the Eyes, Salt Rheum, Blotches in the Skin, and General Debility, this remedy, in offering with the utmost confidence that it will afford speedy relief.

Carrying the United States Mail,

on 5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agency of the United States Mail Line as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be dispatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving one Through Ticket, guaranteeing no detention on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over banks and shoals.

Arrangements have now been completed for the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail and passengers, thus securing passengers by the Mail Line a speedy and short passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents of Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

LINCOLN'S WATER PROOF BLACKING AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

Is it not a truth, that when the feet are often wet it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and rotten; but when it is water-proofed it is remedied. By the application of this preservative it remains soft, and entirely improving to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the constituent properties with which leather is made. It will not only make either water-proof, but strengthen and preserve the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company under the charge of the subscriber.

It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the City, and within short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Extra accommodations for strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests, the proprietor hopes to receive a liberal share of patronage.

THE LUXURY AND PROFIT OF HONEY MAKING

In Forrey's Bee Hive.

THE subscriber, having purchased the right of making, and selling, *Lovell Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premium, wherever exhibited, has introduced an improvement into the Hive, and is now prepared to make the same in connection with the Dome Phalanx, and to sell rights to towns and individuals.

This Hive, thus improved, is admitted by persons acquainted with the honey-making business to be superior to every thing yet invented for the purpose. Hives and the requisitions for their profitable management in the apiary, by providing for ventilation at all seasons of the year—room in the extracting apparatus for bees—convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The best feed for the Hive for storing honey, and the best method of their use, for the market, nothing from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for beehives and individual rights.

PERRY DAVIS' Vegetable Pain Killer!

REV. T. ALLEN, writes from Tavoy, Burmah, says:—Within the past four years I have used and disposed of above five hundred bottles, and now want it. Please send me a fresh supply (through the Mission Rooms), as soon as you can; any two hundred bottles. Cleveland Se will use it myself, and there are constant calls for it, both of Karens and Burmans. I always take it with me into the jungles, and whenever occasion arises to use it by reason of myself and others, or Natives, it does its work well. I was awoke by a most excruciating pain in my foot. On examination I found a mulberry bitten by a Centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep.

Rev. H. L. Van Meter, of Bhamo, India, writes:—Here let me assure you that we prize your Pain Killer very highly. For the first two or three years of our residence in India we were scourged by the wet season prostrating, and did not use it, and now would hardly feel safe without it for a month or two. Only a few nights since Mrs. Van Meter was stung by a scorpion, and intense pain was instantly felt all along the arm, and soon a number of the sting is followed. By the use of the application of the Pain Killer for an hour or more, and at intervals during the night, the stinging symptoms were subdued, and in the morning only a slight soreness was felt in the part. Mrs. Gutzlaff had a severe case of Fever and Ague, accompanied by diarrhœa, and it acted like a charm, breaking up the fever. The Karens have found it a perfect cure for cholera.

Mr. W. L. Carpenter writes from Calcutta, "Perry Davis' Vegetable Pain Killer is a very valuable medicine, and most people here that have used it entertain a high opinion of its worth."

Brinsley, Davis & Sons, Proprietors. We have sold the balance of Pain Killer per ship Manila, and have not done a cent's worth for many days; there will be a demand for 2,000 to 3,000 cases in Calcutta and Chinsurah, by the 1st of November, and we cannot supply it. Nothing of the kind has ever been so popular here as the Pain Killer. Please forward us 2,000 cases by the ship Manila, and oblige us. Yours truly, Mackintosh & Co.

Manila, Luzon, Philippine Islands, May 1, 1858. Messrs. J. Davis & Sons—Inclosed we have to hand you a Sight Draft on Messrs. Grinnell, Minturn & Co., for $1,000, in payment for invoice of Pain Killer, lately received per ship Manila. Nothing of the kind has ever been so popular here as the Pain Killer. We will be thankful to receive by the next opportunity 2,000 cases, as we are daily receiving orders for it from the interior. Please to make out the account and invoice in the name of Messrs. Russell & Sturgis, Boston, as we wish to make a remittance to them. Please send us a Pain Killer Almanac for the present year. Yours truly, Russell & Sturgis.

DR. HOOFLAND'S Worm Syrup and Liver Pills,

PROBABLY one reason why Worm Medicines are so frequently ineffectual may consist in the fact that they contain no qualities except as *Worm Killers*. Consequently in many instances where we mistake the symptoms of disease and doctor for worms, when the cause of disease is not worms, but a *derangement of the system and consequent debility and ill health, no doubt rapidly follows*, wherein the use of *Dr. Hoofland's Tonic* becomes at once the *immediate remedial agent*, as well as worm killer, the patient imperceptibly gets well, though the worms are troublesome.

Thus it will be readily seen that it possesses many *advantages* over the worm medicines, as it not only kills the worms, but builds up and restores the patient to general health besides.

American Safety Paper.

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anatotic Counterfeits, Erasures, Fractures or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper, in America, invented and patented in England by HENRY GLENN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper in recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House and Meade Brothers, extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but make it last as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it—the properties inserted in the pulp being preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, the public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper make it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 150 horse power, and are able to fill all orders for Paper at the shortest notice.

All letters for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

American & Foreign Patents

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington under the Act of 1837.
76 State St., opposite Kilby St.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Deeds, assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and confidence, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, renders him able, beyond a doubt, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

In regard to Mr. Eddy as one of the most capable and exemplary practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and will give copy of printing their applications in a case to be prepared here as early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents.
Washington, February 8 1858.

Mr. S. Hollis Eddy has made for me FIFTEEN applications, all but one of which patents have been granted, saving that a case pending, which unmistakable proof of prior invention and actually on his part leads me to recommend all inventors to apply to him to prosecute their patents, as I am sure they will be thereby the most faithfully and the best served in the shortest time, and on reasonable charges. JOHN TAGGERT.

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his legal practice, made such advice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Important to Horse Owners.

PORTSMOUTH, N. H., May 23, 1858.

T. C. Butler, Esq.

Dear Sir:—During the last year I have sold some 300 packages of your Miller's Condition Powders, for Horses and Colts, and in no instance that I have heard of, have they failed of giving entire satisfaction.

I regard them as standing at the head of all Horse medicines now in the market, and am satisfied in this opinion by all the stable-keepers and owners of horses who have used them in this vicinity.

I cheerfully give my testimony in favor of your Powders, and advise all interested to give them a trial. Very respectfully yours,

HORSE OWNERS, READ! READ!

CLAREMONT, N. H., March 18, 1858.

Mr. T. C. Butler—Dear Sir: I have sold the agency of Miller's Condition Powders all out—that is, not of yours, but of your agent. You may send me ten dozen more Powders by express and let them pay you for them, and I will pay them here—as soon as you can, for I have customers waiting for them. (Signed) O. F. BROWN.

NEWBURYPORT, Ms., April 1, 1858.

Mr. T. C. Butler—Dear Sir: The first of Feb. last you left me some of your Miller's Condition Powders. I have tried them myself, and many of my friends, and we find them to answer your recommendation so well that I want you to send me six dozen more as soon as convenient. Please let the expressman pay you for them, and I will pay them here.

The Boston Journal

FOR 1860.

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in Advance.

In announcing the terms for THE JOURNAL for 1860, the proprietor deems it unnecessary to describe its peculiar characteristics as a newspaper, or to make any special promises for the future. His record is sufficient to say, that what

THE BOSTON JOURNAL

has been in the past it will be in the future. By the almost unanimous consent of its contemporaries throughout New England, it stands at the head of the New England Press in all those qualities which go to make a reliable, entertaining and instructive journal. This position it has attained by pursuing a steady, straightforward course in all respects, and by never sparing either labor nor money to give the latest intelligence and the fullest reports of all matters of interest at the earliest moment. It has relied upon its own merits, and not upon the reputation attained by reverses or misfortunes, to gain for it the confidence and patronage of the public. That this has been that of *less* than *three times* the number of subscribers in *New England*—and is constantly, steadily increasing. The Proprietor takes pleasure in the employment of experienced correspondents in all the departments of the country, and by the most liberal outlay of money in the procuring of important news, intends to make THE JOURNAL fully worthy the patronage of the name it bears.

The present season is a favorable one for the organization of Clubs for subscription to the Journal. One enterprising man in each town and Village can, with very little trouble, form a Club of ten or more persons, and thus get his own paper for nothing.

THE JOURNAL FOR CALIFORNIA

Is printed on the 4th and 19th of each month, for mailing by the steamers of the 5th and 20th. It is made up with the greatest care for the information of New England friends of those in California. *Over twelve thousand copies* a month are now sent, there being, it is said, more subscribers in that State to this paper than any other printed in the United States. It is mailed, at this office for 10 cents a copy. A person sending one dollar can have one each of the seven numbers sent to him, one they may desire.

TO ADVERTISERS.

As an advertising medium THE JOURNAL ranks as equal, in New England. The old, worn out and unjust system of yearly advertising has been entirely abolished, and a new, uniform system of prices adopted, by which each advertiser pays for the room occupied in the paper, and no more. Advertisements may be left at the Counting Room, or sent by mail or otherwise, with a perfect confidence that the price charged will conform exactly to the published rates, knowing they will be inserted in precisely the same terms as though handed in in person and a bargain made in advance. No "Drummers" are or ever have been employed to solicit advertisements, and no discount from the regular established prices is ever allowed, however large the amount advertised. These considerations, combined with the fact that its circulation is nearly

Three Times as Large

As any subscription or Two Cent Daily Paper published in Boston, and that all advertisements appear in both the MORNING and EVENING papers, renders it a favorite medium for communicating with the public, among the most intelligent and enterprising advertisers.

The Boston Journal is for sale at the Newspaper and Periodical Depots in Boston and all the principal cities and towns in the six New England States, and in the cars on all the railroads leading from Boston. It is delivered by regular carriers at the residences and places of business of the citizens of the larger cities (such as Worcester, Salem, Lynn, New Bedford, Taunton, Lowell, Lawrence, Providence, Newport, Portland, Me., Bangor, Me., Concord, N. H., &c., and in the adjoining cities of Roxbury, Charlestown, Chelsea and Cambridge, with the same regularity and promptitude, and in the same manner, as it is in Boston.

Orders for either of the editions of the JOURNAL must be invariably accompanied by the cash, and should be addressed to

CHARLES D. ROBBINS,
12 State Street, Boston.

To newspapers that may copy this prospectus with an editorial notice directing attention to it, and send a copy *marked* to this office, we will send the Daily Journal for one year.
